

ISSCA Regenerative Medicine CONFERENCE

Hyatt Regency Istanbul, Turkey, April 28th

Speakers

Dr Leslie Mesen
Costa Rica

Medical Director of Stem Cell Center Costa Rica
Chief Medical Officer of the Stem Cells Transplant Institute in San Jose, Costa Rica

Lecture: Mesenchymal stem cell procedures for healing Large Foot Ulcer. Clinical Case.

Dr Mehmet Bozkurt

Plastic and Reconstructive surgeon in Diyarbakır Military Hospital Fellowship in Microsurgery/Plastic Surgery at Cleveland Clinic, 2006 - 2007.

Dr Mehmet Veli Karaaltın

Associate Professor of Plastic Aesthetic & Reconstructive Surgery, (European Board Certified), Hand Surgery Specialist, Head & Maxillofacial Surgery Specialist.

Lecture: The Role Of Cellular Therapy & Futuristic Applications In Plastic Reconstructive Surgery: From Anti aging-to-Reconstructive Surgery, Level Evidence IV

Hilmi KARADENİZ
M.D.

Assistant Professor, Department of Orthopedics and Traumatology, School of Medicine, Kemerburgaz University

Dr. AbdulMajeed Alwan Hammadi

Consultant hematologist, FRCP London. Pioneer in stem cell transplantation and therapy in Iraq.

Lecture: Intra-arterial injection of autologous bone marrow derived mononuclear cells in ischemic stroke patients

Dra Maritza Novas
USA

Research and Development Director of Global Stem Cells Group

Dr. Syed Salman Naeem Gilani

CEO and Stem Cells / Regenerative Medicine Consultant
Member American Academy of Anti Aging and Regenerative Medicine

Lecture: Effectiveness of Autologous Bone Marrow Derived Stem Cell Transplant. Effect of Autologous Bone Marrow Derived Stem cells treatment on Knee Osteoarthritis.

Dr. Daeyong Kim
Ph D

Founder & General Director of ISSCA
CEO / President of N-BIOTEK
Professor of Westminster Graduate School in Korea
Ph. D.in Adipose derived Stem-cell Health Educator

Keynote Speaker Lecture Stem Cell Therapy for Diabetes

Assoc. Prof. Dr. R. Gökmen Turan

FESC (Head of the Structural Heart Disease in Department of Internal Medicine, Division of Cardiology, Porz Hospital, University Hospital of Cologne and University of Witten/Herdecke)

Lecture: Therapeutical Applications of Stem Cell in Heart Failure

Dr. Mahir Mahiroğulları

Memorial Health Group
Sisli/Atasehir Hospital Istanbul
Department of Orthopedics and Traumatology

Lecture: Cartilage treatment with the scaffold combined to stem cells.

Scientific Program

PROGRAM		
Moderators	Speakers and topics	Time
	Opening (Benito Novas) CEO and founder Global Stem Cells Group Director of Public Relations of ISSCA	08:50-09:00
Moderator: Dr. Tulga Ulus	Dr. Daeyong Kim CEO of N-Biotek, Inc, a preeminent manufacturer of biomedical and laboratory equipment. President of International Society for Stem Cells Applications. Lecture: In recognition to the enormous potential of stem cell research, stem cells have proven to be powerful tool in modern biomedical research	09:00-09:30
	Dr. Maritza Novas Research and Development Director of Global Stem Cells Group Lecture: Fundamentals of stem cell biology and clinical applications	09:30-10:00
	Dr. R. Gökmen Turan FESC (Head of the Structural Heart Disease in Department of Internal Medicine, Division of Cardiology, Porz Hospital, University Hospital of Cologne and University of Witten/Herdecke) Lecture: Therapeutical Applications of Stem Cell in Heart Failure	10:00-10:30
	Coffee Break	10:30-10:50
	Dr. Mehmet Bozkurt Chairman of Plastic Surgery at Health Science University in Istanbul Lecture: The application of regenerative cells in immunologic and diabetic wounds and severe burns.	10:50-11:20
Moderator: Dr. A. Yaser Müslümanoğlu	Dr. Mahir Mahiroğulları Chairman of the Department of Orthopedic Surgery at Istanbul Medipol University School of Medicine. Lecture: Cartilage treatment with the scaffold combined to stem cells.	11:20-11:50
	Dr. Leslie Mesen Medical Director of Stem Cell Center Costa Rica Chief Medical Officer of the Stem Cells Transplant Institute in San Jose, Costa Rica Lecture: Mesenchymal stem cell procedures for haling large foot ulcer. Clinical Case.	11:50-12:20
	Lunch	12:30-13:30
Moderator: Dr. Adil Allahverdiyev	Dr. Mehmet Veli Karaaltın Associate Professor of Plastic Aesthetic & Reconstructive Surgery, (European Board Certified), Hand Surgery Specialist, Head & Maxillofacial Surgery Specialist. Lecture: The role of cellular therapy & futuristic applications in plastic reconstructive surgery: from anti aging-to-reconstructive surgery, Level evidence IV	13:30-14:00
	Dr. Syed Salman Naeem Gilani CEO and Stem Cells / Regenerative Medicine Consultant Member American Academy of Anti Aging and Regenerative Medicine Lecture: Effectiveness of Autologous Bone Marrow Derived Stem Cell Transplant, Effect of Autologous Bone Marrow Derived Stem cells treatment on Knee Osteoarthritis.	14:00-14:30
	Coffee Break	14:30-14:50
Moderator: Dr. Güven Erdoğan	Dr. Hilmi Karadeniz Assistant Professor, Department of Orthopedics and Traumatology, School of Medicine, Kemerburgaz University Lecture: Current approaches to Application of Regenerative treatments in Athletes	14:50-15:20
	Dr. AbdulMajeed Alwan Hammadi Consultant hematologist, FRCP London. Lecture: Intra-arterial injection of autologous bone marrow derived mononuclear cells in ischemic stroke patients	15:20-16:50
	Closing ceremony and announcement for further events	16:50-17:10
